Lake Association Planning Biggest Season In Record

Spirited Session Enjoyed By 200 Boosters Of Region

A spirit of optimism prevailed at the first 1946 meeting of the Lake Tahoe-Sierra Association at Chambers Lodge yesterday when approximately 200 members and guests enjoyed the luncheon and hospitality of the genial host, D. H. Chambers.

President Harry Comstock was not able to be present and Pete Bennett of Brockway acted in his stead while George Kehlet ably took over the duties of Secretary Henry Droste who could not attend because of the illness of Mrs. Droste.

Following the introductions of the guests and few remarks by various representatives, Kehlet gave a summary of the proposed activities and urged that the membership be increased by urging newcomers to the region to participate in the program. He said that while the advertising program for this year would be curtailed, they hoped to build up a sizeable fund for future promotional materials.

Kehlet indicated that a drive would be made to promote better recreational facilities through the planting of more trout and kindred ideas.

It was suggested during the meeting that a property owners' league be formed to coordinate with the association in matters pertaining to the interests of both groups.

Chambers, treasurer of the association, gave a financial report showing the affairs of the group in a healthy condition.

A. M. Barton gave a brief report on the lake's water level and proposed diversion and said that while the army engineers' report was not yet completed, it was indicated that they would locate a new storage reservoir on Prosser Creek north of Truckee, diverting the water from Lake Tahoe and the Truckee River so that the maximum level could be reduced from 6229.1 to 6228.0 and at the same time maintain the agreement entered into several years ago through the joint committee from California and Nevada working with federal authorities.

Dr. C. B. Pederson proposed that the association sponsor a movement to provide two recusitators, one for the south end and the other for the north end of the lake. Committees composed of Al Richardson and Charles Young and Theodore Schleuter and Eleanor Swanson, with Kehlet to cooperate with both, were named to raise the needed fund through subscription.

Mrs. Swanson called attention to the plan by the Tahoe Women's Club to sponsor an ambulance for the lake and urged the resort owners to assist.

Before and following the luncheon meeting the guests mingled and enjoyed exchanges of ideas and a general visit.

It was one of the biggest meeting the association has ever held and shows the trend of cooperation in promoting the area as a unit rather than in individual efforts.

It is always a distinct pleasure to attend meetings of the Lake Tahoe-Sierra Association where scores of businessmen and women assemble to discuss mutual problems and plan for the future of the great recreational region. The one thing which stands out in paramount importance at all the meetings is the emphasis placed on advertising. There is never a murmur of opposition to proposals to spend thousands for advertising and it is quite obvious that only through advertising can the region continue to prosper and develop. And where advertising applies to a region it also applies to individual concerns. It has been proven time after time that only through consistent and forceful advertising can any business survive and succeed.

Drivers who propel huge trucks through Truckee at speeds which would be unsafe on the open road and with no attempt to muffle the exhaust are creating a very unfavorable attitude by local citizens. If schedules are so fast that they must drive 40 and 50 miles an hour down the main street of a town without a chance of stopping if a small child stepped into the street, they at least should have the courtesy to muffle the terrific noise they make.

A Lang Transportation Company driver, John McDonald of Sacramento witnessed the mishap and told the story to State Patrolman William Gautsche who investigated.

The two widely known Truckee residents, who had resided here since 1939, were en route to Reno to enjoy a dinner with their daughter, Mrs. Kathleen Petitti, when the mishap occurred.

Both were natives of Wisconsin and came to California 26 years ago and for many years lived in San Francisco where Collier was associated with the Coast Tire Company until ill health forced his retirement.

They were survived by four children, Kathleen of Reno, Mrs. Veronica Foster of Crescent City, a former Truckee resident; Charles Collier of San Francisco and John Collier of Truckee. The latter is the night policeman here.

Looking Ahead

EDUCATION, or the lack of it, gets blamed for about all the world's ills. It is pretty generally agreed that the peoples of Earth need teaching, or perhaps re-teaching. Moreover it is not much trouble in any company to start a free-for-all discussion about the science of education. In fact there are some who insist that teaching is an art and not a science at all.

George William Curtis once wrote: "While good men sit at home, not knowing that there's anything to be done, nor caring to know, half persuaded that this republic is the contemptible rule of a mob and secretly longing for some splendid and vigorous despotism . . . remember that it is not a government mastered by ignorance; it is a government betrayed by intelligence."

Study What? SCHOOLING actually does not help people much unless it makes better neighbors of them. It should, by all means, train them to engage in activities with other people, for the benefit of all. *Today* this is clearly the most essential feature of education because people who don't understand cooperation are being led by the nose straight through collectivism to dictatorship.

We have a sad state of affairs indeed when intelligent people realize that things are taking place which they suspect are very bad for the country, yet fail to take a hand in remedying matters. Preserving the personal liberty of all people ought to be every man's personal duty. Those who have been without freedom consider its safety a high moral obligation.

Stay Free SOME men have deep learning in fields that do not embrace history government or economics. Others have gained far-flung knowledge without sensing the duties of citizenship or any obligation toward other people. Curtis' long life ended before this century began but he saw the political dangers of this day with amazing clearness: "Betrayed by intelligence," he said.

The notion that a nation may be governed, not by a ruler but by the people themselves, was not raw new in Mr. Curtis' time. Our own republic was hardly half as old as now when he began writing for *Harper's Monthly*. Otherwise he had all the examples we have. One big difference in his generation and ours is this They still appreciated their freedom.

Some commentators crusade for penetrating study in narrow fields of learning while others advocate wider browsing ranges. Consolidating our recent scientific gains and preserving our freedom is, however, our No. 1 problem. Our vital classroom need is a refresher course in comparative welfare. Who, when and where have people lived best? *Answer:* We, right here in the U. S. A.

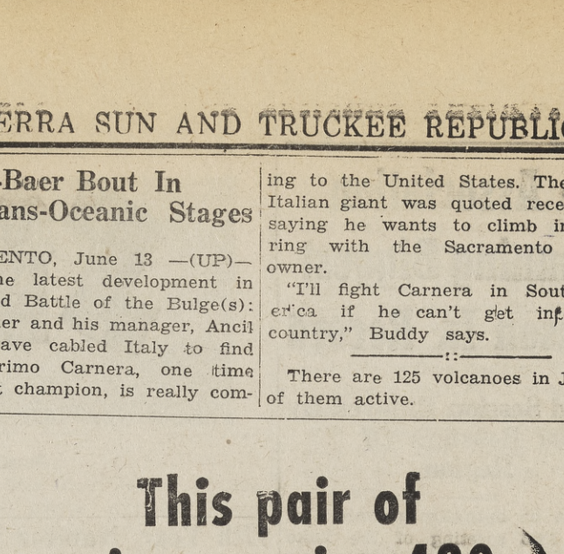
MY PLACE in the SUN

by DOUG BARRETT

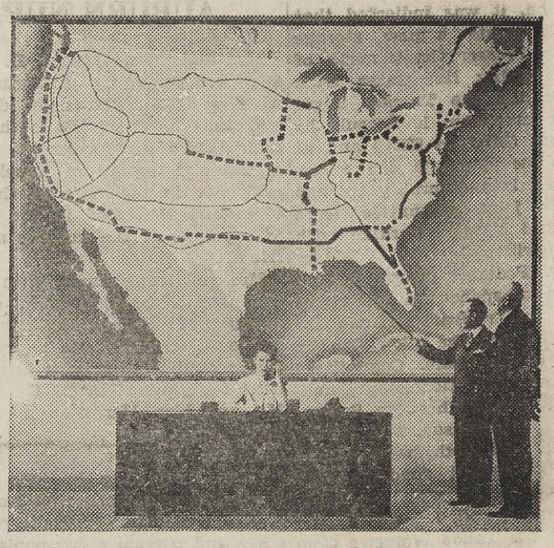
Political analyists anr prognosticators during the past week have been checking and chattering about the June 4th election and the coming November 5th election. There are a few statewide and county offices still at stake and the partisans of the opposing candidates are figuring on which way the votes, cast for the eliminated candidates, will go. Some "wise achers" say that Candidate Doe's votes will automatically go to Candidate Roe instead of Candidate Moe, thus electing him. Having voted for one or two Does, I can tell them right now that they're all wet. The day when anyone can deliver the votes of any group of electors—especially in this district—is past. No one walked into that canvas covered booth with me at the primary election and nobody's going to in November. I voted for the men I wanted. Some won, some lost, some just got a carry-over. But just because I voted for a man in one election, doesn't give him a permanent lien on my vote from now on. I don't know how the rest of you folks feel, but it irks me a bit to have my intelligence questioned to the extent that it is assumed my vote can be delivered.

'ROUND THE MOUNTAIN: The new telephone directory is out with between 65 and 70 new listings for Truckee....Father Jeremiah Boland, our new Catholic pastor, is going to be a real asset to the community.... and Rev. Krueger at Kings Beach, according to reports, is doing an excellent mission building up his congregation there....Jay Rablin has taken a vacation job at Tonini Grocery....Bob Carruthers "electrocuted" hot dog specialty at the Tourist is worth the price of admission....incidentally, folks, I was elected to the Republican county central committee at the primary....and got one vote for the state assembly against the popular Scoop Thurman....and I do sincerely thank you for the compliment....N. F. "Lum" Dolley's principal write-in opponent for Constable was Anthony "Abner" Pace who polled two votes; Al Pfaendler, the railroad officer, and Burle "Sarge" Reynolds attracted one each....the circus in Reno Sunday brought out these Truckee kids: Dick and Mike Ackerson, Bobbie Jean and Tommy Dolley; Viv, Dennis and George Gregory, Benita Mellen and Earl Smith ....the election also had its bad side for Dick Little, our next justice of peace; he slipped on his veranda and badly sprained his ankle while cleaning up after the victory party.... Mesdames M. J. McGwinn and Elizabeth McKay chatting while homeward bound....specs add a real note of distinction to Steve Aplin.

This pair of wires carries 480 long distance calls simultaneously



Small copper wires in copper tubes about the size of a pencil...yet nearly five hundred people can talk over them at the same time. They are units of the famous coaxial cable, developed by the Bell Telephone Laboratories to help speed your calls up and down the Pacific Coast and across the country.



Work has begun already on our part of the first transcontinental coaxial cable along the route shown (dotted line). It will be an eight-tube cable used for long distance calls and television transmission. Actually, this project is only part of our plans to extend and speed long distance service.

Many other improvements are on the way. For it is our purpose in our $400,000,000 five-year expansion program to provide an ever-widening, ever-improving telephone service . . . so that the telephone steadily becomes more valuable and useful to every user.

Every day we seek to make telephone service even better than it has ever been before

Tahoe Letter

From SWANEE

Tahoe City, California.
June 10th ,1946

Dear Tahoeites:

Write you this week on Monday morning, a morning which broke with the promise of a fine sunny day, but which has slowly changed into an atmosphere of coolness, with a breeze now stirring the trees and clouds obscuring the sun. Even the songs of the birds have been stilled, but the barometer remains high and no storm is anticipated.

The buck brush is white with a million tiny flowers and the snow bush, a sister plant, will soon be bursting into bloom, the hills on the highway to Reno already white with their perfumed bushes. Snow plants now are everywhere, and the manzanita are in full blossom.

According to former years it won't be long now until the lake populace will be suffering with the annual seige of "pollenitis", a word I coined many years ago to indicate the illness which many experience from drinking water in which pollen has fallen, or who go swimming and drink some lake water, which is edged with the yellow troublemaker. A doctor once told me that he knew of no special name for the peculiar sickness, symptoms of which vary with different persons, but he thought the word I had coined quite appropriate. Many hay fever sufferers are glad when this period of the season is over, as the pollen is most troublesome to their affliction. This time of year always brings to my mind a remark I once heard a woman visitor make to a group of friends who accompanied her in answer to their query of what made that yellow line along the water's edge. She told them that the government every year purchased sulphur to put in the lake in order to keep the water pure. I smiled as I thought of the number of pounds of sulphur such a procedure would require, and the expense thereby involved. I believe the pussywillows along the shoreline are the chief offenders in causing the annual siege of pollenitis, but whatever the cause. the illness is most unpleasant while it lasts.

Not much service news this week but hear that Sea Marine Dick Hinkle son of Dr. and Mrs. George Hinkle of Bittencourt Tract, is anticipated home on furlough Sunday next, and he will be mighty happy to return to his favorite haunts after so many long months at sea.

Had a few lines this week from our friends the George Mawdsleys of San Francisco, whose son-in-law had hoped to arrive for a few days of fishing with friends, but who must postpone the trip for the time being

The Mawdsleys continue to enjoy reading their Sierra Sun each week and keeping up with the news of their many old friends in the region

Our very good neighbors, the Baldocchis and the Gallis, who have homes in our vicinity, made good their promise of earlier date to bring us some asparagus for winter consumption. Yesterday they arrived with two large boxes and tonight we will get out the pressure cooker and go to work on it. Who knows what the fortunes of the coming winter will be? Having a full larder will certainly ease the worry of eating regularly should more strikes and shortages develop.

Jack Urch, son of W. J. Urch, Homewood plumber, paid Tahoe an unexpected visit one day last week when he flew over Homewood and gave his dad a salutatory dip of greeting. He is now finishing his last semester at University of California, Berkeley, in public accounting, but at heart he is a born aviator and is seriously considering taking up flying as a profession. He started his aerial career with the Squadron of Golden Bears, was an instructor of dive bombing for the navy during the war, and at the end of hostilities was stationed at San Diego Naval Base where he had been assigned to a carrier and was just ready to take off on active battle duty. He is married and is now flying one day a week for the Naval Reserve, which offered the opportunity for a flight over Tahoe.

One lad who is thoroughly enjoying his return to Tahoe is Donnie Prusso. who has spent most of his summers at the lake since he was a wee lad. Donnie can no longer be classed a "boy scout" as he was before enlisting in the Marines, with whom he served for many long weary months on Okinawa, where he won the name of the Okinawa Kid. Don has grown to five feet six inches tall and has gained 30 pounds, and is now contemplating joining the ranks of the carpenter apprentices, just as his brothers Ray and Sherwood did before him. His mom is spending the summer at the family home near Carnelian Bay and his dad enjoyed a brief visit one day last week with them, planning to return in the late summer for his regular vacation.

Recent visitors at the lake were Joe and Tom McLaughlin, brothers of Mrs. Bernie Bechdolt. Both boys were recently discharged from the service, Joe from the Coast Guard and Tom from the Army. They spent five glorious days here, returning reluctantly to their Pasadena home and promising to return soon for another visit.

Mr. and Mrs. Henry Berrette of San Francisco were guests for several days at Mayhew's Ward Creek Resort last week. They are neighbors in the city of the E. H. Druhns of Sunnyside and enjoyed a trip around the lake and a day in Reno while here. They left for home on Saturday.

Had anothr talk last night with Mrs. Vera Fazier regarding the prospects of acquiring an ambulance for the Tahoe area. She reports that Mr. Evilsiser of Fallon was a visitor at Tahoe at his Lake Forest summer home briefly last week, but did not have the time to bring up the ambulance for the inspection of Tahoeites who are promoting the new project. He cannot sell the vehicle to us until his new one arrives, but is holding it for Tahoe's first bid at sale time. It is hoped the subscription drive can be gotten under way in the near future in order that the money may be raised in time to provide lake-wide service this summer.

An interesting reunion occurred recently on the Truckee River when Mrs. Elizabeth Walker's caretaker, John Franklin, was reunited after a separation of 42 years, with his sister, Mrs. John A. Wood, recently of Geary, Ind., now, with her husband and son who accompanied her, a new citizen of El Monte, Calif. Mrs. Wood called by telephone from Bishop to inform her brother she was on her way here and asked him to meet her on the highway so she would know where to find him. Neither recognized the other, but their reunion afforded both a great measure of pleasure in catching up with the happenings of the intervening years.

Charles Henrikson of Lake Forest, fiance of Miss Eunice Duffee, last week sought medical attention when an undetermined illnses kept him from work. He was reported much improved on Monday.

Mrs. Justine Pingree of Tahoe City recived pleasant news on Monday when her daughter, Mrs. John A. Hahn of San Francisco, phoned that her husband, PFC Hahn, was discharged from service with the army this morning. He was last stationed at Bremershaven, Germany, and served as an MP overseas for more than a year. Also home, on furlough, is Chief Warrant Officer Phil Asal, Mrs. Pingree's son, who arrived on June 5th and will remain until the 15th. He was accompanied home by a pal, Chief Machinist Mate Edward Statton of San Diego, who is presently with the shore patrol. He enjoyed two days here but has returned to his base following some most enjoyable fishing excursions which netted him nothing more than a wee minnow. Phil brought back a two pounder, so at least he had a taste of Tahoe trout. Phil is a member of the crew of the USS Badoeng Strait and has been running between San Diego and Honolulu.

Ring off for the week with every good wish for your good health, good cheer and happy days ahead. As ever, SWANEE.

TWO NEW TRACTS IN TAHOE AREA GET BOARD O. K.

TAHOE CITY— Constable Harry Johanson will begin his nightly summer patrol of resorts and private homes on June 15. On Monday last he attended the meeting of the Placer County Planning Commission of which he is secretary. They passed plans offered by A. J. Ketman, North Tahoe realtor, for subdividing a tract of land at Tahoe Vista. Subdivision plans of Mr. Berio, Auburn engineer, for Ward Creek property were also approved.

Johanson reports a lively increase in inebriates in the Tahoe region with an average of four a day being arrested to date.

POMIN DAUGHTER IS MARRIED AT BAY CITY RITES

TAHOE CITY— Mrs. Northie Pomin of Tahoe Park on Monday revealed details of the recent marriage of their daughter, the former Nellie Woolley, to Albert J. Boge of San Francisco.

The wedding took place on May 29 at St. John's Presbyterian Church in San Francisco, before a group of relatives, the ceremony performed by Rev. Lloyd Carrick.

The attractive bride was attired in a gray dress suit, enhanced by rose colored accessories and a corsage of pink baby roses and lily of the valley. Her matron of honor, Mrs. Harry Pomin, also wore a suit of gray but with lavender accessories and corsage. Best man was Val Koenick, brother in law of the bridegroom.

A reception followed the ceremony at the bride's new home at 582 28th Avenue, San Francisco, and the wedding supper was held at the Sir Francis Drake Hotel. The table was beautifully decorated with white gardenias and delicate green ferns and a traditional tiered wedding cake, cut by the newlyweds.

Those who made up the wedding party included Mr. and Mrs. E. H. Pomin of Tahoe, parents of the bride; Mr. and Mrs. J. Boge, San Francisco, parents of the groom; Mr. and Mrs. Koenick, sister of the groom and her husband; Mr. and Mrs. Harry Pomin, brother of the bride and his wife, and their children, Betsy and Harry Jr., the newlyweds and their 15 year old daughters, the Misses Barbara Woolley and Beverly Boge.

The Boges and daughters enjoyed a four day visit at the Pomin home in Tahoe Park, Barbara returning with them to the city when they departed Sunday.

Boge has been associated with the Standard Oil company in the bay region for more than 20 years.

TAHOE BRIEFS

Dorothy Morhain of the telephone office had an unusula experience on Monday night at her home on the lakeshore in Tahoe Park. Her pet dog, Dugger, out for a midnight prowl under the Tahoe moon returned around 2 AM in a howling rage. Seems he met up with one of those nasty porcupines, got a bit rambunctious and Dorothy was busy extracting quills until time for her alarm to go off for work.

Bill Avery of Reno is giving the Standard Oil stations around the lake their annual coat fo fresh paint during the past few weeks.

Tim Butler, who for many years has managed Tahoe Tavern shows arrived to prepare the casino for summer opening on Monday.

Mr. and Mrs. Charles Cross of the Truckee-Tahoe Lumber Company's Tahoe office went to Auburn on Thursday of last week where they accepted delivery of a nifty new Buick sedan.

Captain Hans Hansen, formerly the caretaker at Rubicon Lodge, was among the lake region visitors recently. He did not have time to contact many of his friends who had planned to give him a party while here, as he was busy packing up his belongings left here for transfer to his home at Half Moon Bay. He left Tahoe on Tuesday..

Mrs. Vivian Nelson of Oakland, sister of Mrs. Theodore Schleuter, is spending the summer with the Schleuters at their Tahoe Park resort. A guest of the Schleuters for the month is Bob Evans of Los Gatos.

Bob Watson has returned to the lake for the summer season and will reside at the Watson Mill beyond Lake Forest while their home in town is rented for the summer.

Mrs. Ed Doolittle, the former Helen Worden, and two sons visited briefly one day last week at the Henry Worden home in Tahoe Park. Her youngest son is just six weeks old. The Doolittles have sold their duplex in Walnut Creek and are now making their home in Emigrant Gap.

Mr. and Mrs. James Worden on Tuesday of last week became the parents of a little son, their first child having been a girl. They reside in San Leandro.

Mr. and Mrs. Sidney Ehrman of San Francisco were weekend visitors at their home, Pine Lodge. Members of the family will return soon for the summer season.

Richard Brodehl, grandson of Mr. and Mrs. D. M. Brodehl of Tahoe City, and his uncle, Oliver Mahin, both of Lodi, were weekend visitors at the Brodehl home in town.

In for a stay at their lakeshore home in Sunnyside district are Mr. and Mrs. Louis Marsten and two children of San Francisco.

- Use a mild soap or soda for cleaning your refrigerator.
- Defrost whenever freezing compartment has coating ¼" thick.
- Wipe up spilled foods at once.
- Do not put hot foods into the refrigerator.
- Store foods properly and do not overcrowd the shelves.

THE TIME is now, as Spring is here and bountiful Summer approaches, to "service up" your refrigerator. Wash it thoroughly inside and out so that it will be sweet and clean for fresh food storage. Carefully give it soothing drops of oil where needed. Whisk out dirt and dust from the mechanism with a handbrush and dust rag. And of course, never let frost "choke up" freezing compartment. You MUST depend on your present refrigerator to take care of food for the hot summer days ahead. If repair is necessary, have it done now before the summer rush.

Grasshoppers Threaten Range In Nat'l Forest

QUINCY, Cal., June 13—(UP)—Grasshoppers mobilizing for an offensive in the Meadow View section of the Plumas National Forest are causing concern to forest officials and stockmen in the area.

Ranger Ben Beard said that crews composed of fish and wildlife service men, farmers and forest service workers are spreading poison in the district to forestall damage to range forage.

Beard, veteran of two Mormon cricket infestations in the park, declared the situation may become serious.

Sharp Boost Reported In State Veteran Loans

SACRAMENTO, June 13—(UP)—Farm and home loans totaling $4,500,000 were granted to 854 veterans during May, Lawrence B. Stevens, state director of veterans affairs, reported. The amount marked a substantial increase over a $2,791,000 loan total for veterans in April.

Stevens said that loans to World War II veterans thus far have used nearly $18,000,000 of a $30,000,000 bond issue voted for the purpose. An additional $100,000,000 bond issue will be proposed on the November general election ballot.

VACATION DRIVING SAFETY MEASURES LISTED BY OFFICIAL

SACRAMENTO, June 13—(UP)—In the face of predictions that vacation travel during the next three months will be the highest in history, the state department of motor vehicles today urged motorists to plan for safe vacation.

Edgar E. Lampton, director of the department, said surveys indicate hundreds of thousands of families are planning their first vacation trip in five years—and many of them will be traveling in cars equipped with retreat tires or worn parts which present traffic hazards.

Lampton offered the following safety rules as measures to reduce accidents:

Don't try to go too far from home. Do not overload your car. Be sure the car is in good repair, and carry tools for emergency repairs. When driving on mountain roads keep well to the right and observe the 15-mile an hour rule on curves.

Load baggage so that it does not protrude beyond the line of the hub caps. **Do not drink and drive.**

And finally, take it easy.

No Whiskey Shortage

SACRAMENTO, June 13—(UP)—That long predicted whiskey shortage hasn't shown up yet, the state board of equalization reports.

In recent months, in fact, the board said liquor consumption in California has exceeded that in New York.

The board revealed that excise tax collections on distilled spirits for April totaled $1,620,077, compared with $1,434,938 for the month of April, 1945, indicating postwar consumption of hard liquor is greater than that of wartime. The state collects 80 cents a gallon on all distilled spirits sold in California.

ENGLE SAYS THANKS FOR WIN AT POLLS; BACK TO CONGRESS

Congressman Clair Engle, who was reelected at the primary to represent the second district for a thrid term, this week issued a statement thanking the voters of Nevada and Placer counties for their support.

Incomplete returns indicate the congressman won the Democratic and Republican nominations in virtually every precinct in the 18-county district.

"I sincerely appreciate the excellent support given me by the voters of this county, and the residents of the Second District can be assured I shall do my utmost to continue to represent them effectively," Engle said.

Engle returned to Washington on Thursday. He expects to return to the district during the congressional recess later in the summer.

TAHOE BRIEFS

Mr. and Mrs. William Boorman of Tahoe City are busy with plans for their new house to be built in the Fairway tract above the golf links in town. On Sunday they laid the foundation for the structure and the building will progress as rapidly as material can be acquired. Boorman received his priority last week having spent 1¼ years overseas in merchant marine service.

The lake level on Monday morning stood at 6228.77 with only 20 CSF of water leaving the gates in town. Coldest day of the past week was the 6th with 30 recorded and warmest was on the 4th with 72 degrees.

Mr. and Mrs. Ernest Houdlette of Carnelian Bay are also occupying their lakeshore estate at Tahoe.

Mr. and Mrs. Ray Frazier of Lake Forest visited their son and family, Mr. and Mrs. James Frazier and daughter Linda on Saturday last.

Mrs. Al Greenan of Tracy, daughter of Mrs. Alice Gebhardt of Tahoe City, arrived on Wednesday to visit at the home of her mother. She plans to return home on Friday. The Grennans are readying the nursery for a third member of the family who is arriving some time in August.

Mr. and Mrs. Howard Mahurin of Tahoe City last Tuesday entertained for lunch Chaplain and Mrs. Edwin Kirtley and three children who stopped to visit en route to San Francisco from the east coast. The chaplain has just returned from three years duty overseas and will probably be stationed at the Presidio from now on. Near Gardnerville, Kansas, one of their children stepped on a nail and had to remain three days and four nights in the hospital receiving penicillin treatments. He recovered in good shape and the journey continued. They had planned to visit for several days here, but because of the accident had only time to stop for a few hours.

Mrs. L. Cline of Sacramento will be the houseguest of Mrs. Alice Brown, Tahoe Pines postmaster, for the summer season.
